LEWIS RISKS HUGE CONTEMPT PENALTY

FATE OF TAFT IN NEBRASKA UP TO BACKERS

Ohio Candidate Has Support of Strongest Political Group in State.

By The United Press

BEATRICE, Neb., April 8—Sen. Robert A. Taft's fate in the Nebraska presidential primary rested largely today on the power of Sen. Hugh Butler's personal organization in the state.

How effective that organization may be in Sen. Taft's behalf was one of the big unanswered questions that bothered political observers trying to predict the outcome of the seven-man Republican primary next Tuesday.

After a three-day campaign tour across the state, Sen. Taft was headed back for Washington today. He ended his 900-mile trip last night when he addressed a crowd of about 1,500 persons here. In three days, he spoke before about 8,000 persons in 13 cities.

As they headed eastward, Sen. Taft and his followers tended to minimize the significance of Harold E. Stassen's victory in the Wisconsin primary Tuesday. The Ohioan was not entered in the Wisconsin contest.

Taft Backers Surprised

The Ohio senator's Nebraska supporters were surprised by Mr. Stassen's showing but they would not admit that it would affect Sen. Taft's chances in Nebraska. Sen. Taft credited the Stassen victory to "organization and personal campaigning."

If the same factors determine the outcome of the Nebraska primary, Sen. Taft and Mr. Stassen will have offsetting advantages.

Mr. Stassen personally has campaigned more extensively in Nebraska than any other candidate and he has an active organization working for him.

Sen. Taft has visited the state twice for a total of four days, but he has the support of Butler's personal organization—the strongest in the state.

Aim at Stassen

There were hints that some of Sen. Taft's Nebraska followers may be shooting at Mr. Stassen during the next few days on grounds that he is "New Dealish" although some Taft men have privately expressed that view of Stassen, the issue was raised publicly yesterday. Max Miller, head of the Taft-for-President organization in Nebraska said in a statement that it was obvious that "many New Deal votes" had been cast for Stassen in Wisconsin.

Popularity Test In Nebraska Next

By The Associated Press

WASHINGTON, April 8—Politicians sizing up the apparent Dewey shut-out in Wisconsin waited today for Nebraska's popularity primary to bring the Republican presidential race into possibly sharper focus.

The Cornhusker state's all-star show next Tuesday marks Gov. Thomas E. Dewey's first test of strength against Ohio Senator Robert A. Taft, who wound up a three day personal appearance tour last night.

It also provides a new showdown between the New Yorker and Harold E. Stassen, the former Minnesota governor who romped off with the Wisconsin prize.

Dewey flew into Nebraska last night for a two-day speaking campaign, with Stassen likewise on hand for a final ballot drive.

In all, seven names will appear on the GOP ballot, including those of Gen. Douglas MacArthur, second man in Tuesday's Wisconsin race, and Gov. Earl Warren of California, the fifth avowed aspirant for the nomination.

The two darkhorses are Senator Arthur Vandenberg of Michigan and House Speaker Joseph W. Martin Jr. of Massachusetts.

Although Stassen won at least 19 of the Wisconsin delegates and Dewey had a chance to grab only one of the eight in the MacArthur column, the New Yorker still leads in the national race to date.

He can claim 108 of the 305 delegates picked out of a total of 1,094 to be chosen. Two more Dewey-inclined delegates were named in Oklahoma yesterday, adding to the 10 he got there

Memorial Day Committee Maps Plans for Annual Observance

Selection of a speaker and other plans for the annual observance of Memorial day made up the business session held by the Marion Community Memorial Day committee last night at the Legion Dugout.

Craig Rogers, chairman of the committee in charge of selecting a speaker for the occasion, announced that Rev. John E. Duffy, of New London, O., an outstanding chaplain in World War II would deliver the address for the exercises to be held Sunday, May 30, at 2:30 o'clock in the afternoon in the Marion cemetery.

Chaplain 15 Years

Rev. Duffy, pastor of Our Lady of Lourdes Catholic church at New London, served as an Army chaplain for 15 years, retiring with the rank of colonel. He was a guest speaker at a meeting of the Rotary club weekly luncheon earlier this year.

As in former years there will be a parade to the cemetery and those in charge are asking all patriotic, fraternal and civic groups to begin early to organize marching units and participate in the exercises. Arrangements will be made to have the exercises held in a public building in the event of inclement weather. The exercises will be held at a place near the soldiers' memorial this year instead of in the former location, it was announced.

T. E. Kinnear, veteran service man, will act as grand marshal of the day, and will announce his staff and division chiefs in the near future. Walter Melby will serve as president of the day and Craig Rogers, vice president. The following chairman and committees were announced:

Committees

C. M. Rogers, Alfred Whittington, G. R. Messenger, R. M. Miller and J. G. Orahood, speakers; Miss Emily Wolfel, Richard Meister, Mrs. G. R. Messenger, Mrs. Virginia Owens, Mrs. Bertha Hansen, music; Edward McAndrew, Marion Apple, Nicholas A. Cafagno, William A. Wright and G. R. Messenger, marking of graves; D. J. MacDonald, Claude M. Dutcher and Hubert H. Goerlich, flower girls; John V. Ruth, James Black, Carl Meddles, W. E. Orcutt, Mrs. Don DeLong, Mrs. Evelyn Reynolds, Mrs. Virginia Owens, flowers; Walter Haberman, Earl Johnson, Robert McMahon, LaRue Roush, transportation; C. W. Stafford and Louis E. Bremkamp, seats and grounds; Miss Lillian Plack, Red Cross; Chief William E. Marks and Chief Owen Sifritt, safety; James Cusick, St. Mary cemetery; N. V. Foreman and Charles Morbitt, outlying cemeteries; J. W. Llewellyn, Miss Edna Dutton and Robert T. Mason, publicity; Fred Berg, flags; James E. Sloan and Donald Sims, platform decorations; Capt. Robert Melby, firing squad and trumpeter.

Final plans will be made at a meeting to be held at 7:30 p. m. May 19 at the Dugout.

Richwood Man Questioned In Columbus Hotel Room Murder

A 35-year-old Richwood man is being questioned by Columbus police in connection with the slaying last week of a former cafe hostess and carnival entertainer, Mona McBride, 30, found brutally murdered in a Columbus hotel.

Detective Chief Glenn Hoffman of the Columbus police said this morning that he was being held on an open charge and had admitted bringing the woman to Columbus.

Denies Killing

"He denies killing her and denies having seen her since the middle of January, Hoffman said.

Police picked the man up Sunday night in Richwood after hearing that he had identified the woman from her picture in the papers.

Detectives questioned him for more than six hours last night during which time it was revealed that the suspect had brought the woman to Marion in search of a job before going to Columbus.

Hoffman said the man told him he found the woman hitch-hiking near Pensacola, Fla., on Dec. 8 took her to Tampa and came north with her, arriving in Columbus Dec. 13. They stopped in Richwood where a companion who accompanied them north was dropped off and came on to Marion Dec. 12 where he thought he could get her a job at a place he identified as "Casey's," Hoffman reported.

Job Fell Through

The job prospect fell through the suspect said, and they went to Columbus.

He told detectives he dropped the woman off in the vicinity of Fourth and Main streets and returned to Richwood. He had seen her but once since in a restaurant in Columbus about the middle of January.

He told police he was in Florida looking for a job, when he ran across the woman.

Hoffman reported the man was married but not living with his wife and indicated the man had been in trouble previously. He said the man gave several leads on other men who had known the former cafe hostess who was beaten and stabbed to death in the Ohio hotel in Columbus March 31.

2 Others Held

Although tabbing him a "key suspect," police also arrested a 42-year-old bellhop at the Ohio hotel and a 48-year-old Columbus railroad brakeman. The latter admitted, as did the Richwood man that he had registered at Columbus hotels with the McBride woman as man and wife but denied that the Ohio hotel was involved, police said.

All three were slated for further questioning today. Detective Hoffman said, as efforts were being renewed to "break" the case.

Doors of the theater will open at 7 o'clock for the program to begin at 8. Single admission tickets will be available at the theater. The concert is sponsored by the Band and Orchestra Parents Association.

SOVIET VETO SEEN FOR ITALY IN UN

By The Associated Press

NEW YORK, April 8—A Soviet veto appeared in the cards today for Italy's newest effort to become a member of the United Nations.

From all indications, the Russians are ready to flash the Red light despite the effect such a move might have on the Italian elections April 18.

There also is a possibility a Russian veto may block off Finland from UN membership, although Finland signed a new friendship and mutual aid pact with the Soviet Union only Tuesday. Burma seemed to be the only country among a dozen applicants with a chance of winning membership.

Russia's Andrei A. Gromyko insists that Italy, Finland, Bulgaria, Romania and Hungary, ex-enemy countries, be admitted in a bloc or not at all. The United States and a majority of the security council have turned thumbs down on Romania, Bulgaria and Hungary. The U. S. is pressing for the admission of Italy and probably will back Finland.

Waves to Wife, Baby, Then Dies in Plane

By The Associated Press

THOMASTON, Me., April 8—Baby "booties" and an affectionate note, tossed from an air force plane, were the unforeseen last gifts of a young father to his wife and 19-month-old son who saw him crash to his death moments later.

Sgt. Francis T. Haraden, 21, of Rockland, and Dow Air Force base, Bangor, died of multiple fractures in the plunge of a light training plane into swampland yesterday.

He had just dropped a parsel containing the booties and note onto a lawn where his wife, Dorothy, 19, and baby, Douglas, waved a greeting.

RUSSIANS TURN DOWN PROBE

Soviet General Says British Explanation of Collision Is Slander.

By The Associated Press

BERLIN, April 8 — Marshal Vassily D. Sokolovsky today blamed a British traffic violation for Monday's British-Soviet plane collision.

The Russian military commander said unless he was assured British planes will observe four-power flight rules, he intends to "take measures for the protection of the safety of air traffic over the Soviet occupation zone."

He turned down the idea of a four-power investigation of the crash, which occurred on Berlin's outskirts and killed 15 persons. He favored an inquiry by a Soviet-British commission.

Sokolovsky stated his position in a reply to communications on the crash from his British counterpart, Gen. Sir Brian Robertson. He described the British version of the accident as slander. His letter was published in Taegliche Rundschau, official newspaper of the Soviet military administration.

To Act On Reply

Robertson said on his return here this morning from Duesseldorf that he intends to deal immediately with the Russian reply. He gave no hint of what he intends to do.

Arriving in Berlin at about the same time was Maurice Couve de Murville, one of France's top diplomatic negotiators. He is to meet ranking officials of the western allies and many believe negotiations for a closer linking of the French zone with British-American Bizonia are on tap.

Both Robertson and Gen. Lucius D. Clay, United States military governor and commander, threatened Monday to escort transport planes to Berlin with fighters unless the Russians gave a "satisfactory explanation of the crash." After Sokolovsky said he regretted the accident, they decided against this.

Question of Policy

It was not certain whether the position taken by Sokolovsky in his letter would call for reconsideration of British and American policy.

The collision was between a British European airlines Viking transport, which crashed in the Soviet zone, and a Russian Yak fighter, which fell in Berlin's British sector. The Russian flier, 12 Britons and two Americans were killed.

FARMERS TO FEEL RISING COST PINCH

By The Associated Press

WASHINGTON, April 8—The agriculture department predicted today that some farmers will be pinched this year by rising production costs and lower farm product prices.

It costs farmers more now than ever before, the agency said, to produce crops and livestock products. The margin between what the farmer gets for his products and what it costs him to produce them was said to be narrowing.

Items which will cost more than last year include fertilizers, land rentals, most seeds, real estate taxes, tractors and other farm machinery, gasoline, fencing, bagging and other harvesting materials.

Farm wage rates are expected to continue near last year's record despite prospects of some improvement in both the supply and general skill of workers.

The department said the prospective increase in the supply of farm machinery will ease the general farm labor situation.

TRUMAN ASKS MILLIONS FOR AIR DEFENSE

Immediate Appropriation of $725,00,000 Sought from Congress.

By The Associated Press

WASHINGTON, April 8 — President Truman asked congress today for an immediate appropriation of $725,000,000 for expansion of the air forces.

The house appropriations committee, to which the President's request was directed, called a special meeting for this afternoon to consider the request. It plans to report to the house next week a bill carrying the new funds.

The additional money is for use during the fiscal year starting July 1.

The President last week notified congress that such a request would be forthcoming. It is part of an additional $3,000,000,000 to be sought for overall defense purposes for the next fiscal year.

Of the $725,000,000 requested, $195,000,000 would be in cash and $530,000,000 in contract authorizations for which cash must be furnished later.

Division of Funds

The Army air forces would receive $135,000,000 of the new cash and the naval bureau of aeronautics $60,000,000.

The bigger-and-better air force drive temporarily has shunted aside plans for universal military training.

The aerial expansion program moved forward in both house and senate as lawmakers sought to balance manpower and money demands and yet provide the speediest and most effective national defense.

These were the developments:

1. The house appropriations committee hauled a $775,000,000 air force bill onto the legislative runway with assurance from Chairman Taber (R-NY) of a fast takeoff. Taber assigned top priority to this item in the $3,000,000,000 asked by President Truman to augment the $11,000,000,000 already budgeted for defense. The extra air force funds are for aircraft purchases, research and development.

2. Rep. Clason (R-Mass) announced his armed services subcommittee would begin hearings on legislation to expand the air force from 55 to 70 combat groups.

3. The senate armed services committee confided after the closed door session yesterday that they are considering linking the air force expansion with a temporary draft. They indicated UMT action would be delayed for the time being.

LORAIN YOUTH SAYS WOMAN SHOT SELF

By The Associated Press

LORAIN, O., April 8 — Police probing the death of a 39-year-old widow today investigated a youth's statement she was killed accidentally.

Detective Sgt. Vernon Smith said the man held, Alex Lengyel, 19, a crane operator, voluntarily gave himself up and told a vague story about the shooting yesterday of Mrs. Frances Leonard.

Lengyel, Smith said, declared he was with the woman at her home and intimated she was holding the pistol at the time it went off and killed her.

The mother of two children, Mrs. Leonard died in a hospital less than two hours after she was found in the kitchen by her 13-year-old son, David.

Lengyel was quoted by the officer as saying he had been going with the woman and she picked him up in her car on the night of her death.

He declared the pistol belonged to the victim and that he had fired one shot experimentally outside the home, Smith reported. His description of how the fatal shot was fired was vague.

Lengyel, who was held without charge, turned a .25 calibre pistol over to the police when he gave himself up.

Indicted in Fatal Campus Shooting

By The United Press

BOWLING GREEN, April 8—James L. Singler, 21, Bowling Green State university student who shot and killed a fellow student while listening to a radio mystery program, was indicted today on a charge of manslaughter.

The indictment against the Sandusky youth was returned by a Wood county grand jury composed of 11 women and four men.

Singler is accused of killing Charles Wenzler, 18, of Centerburg, with a shot fired from a dormitory room window March 17. Wenzler lived in an adjacent dormitory.

Singler has maintained that he did not know the gun was loaded.

FOUR KILLED IN TORNADO

Scores Hurt as Twister Skips Over Indiana, Illinois Storm Area.

By The Associated Press

CHICAGO, April 8—Four persons were killed and scores injured in tornadoes which skipped over sections of Illinois and Indiana yesterday.

Property damage was expected to run into the thousands of dollars. The heaviest appeared to be in the Calumet city area on the edge of Chicago and in the Gary-Hammond, Indiana, district.

The tornadic winds whipped over an erratic course through rural areas of northern and central Illinois and in northwestern and central Indiana. Scores of homes and business buildings were damaged. Communications were disrupted.

The federal weather bureau said the twisters hit in an isolated area in the belt of thunderstorms which extended from Arkansas to northern Michigan. The thunderstorms moved eastward through the Great Lakes region, the Ohio valley and into Kentucky and Tennessee.

Rain fell today in the middle Atlantic states and there were scattered thundershowers in the spread eastward into northern Wisconsin and northern Michigan. Minot, N. D., reported a fall of 12 inches; Williston, N. D., 8 inches, and International Falls, Minn., 7 inches.

The dead in the tornadoes included two in Illinois and one in Indiana. They were Mr. and Mrs. Fred Engleking, 55, and Ralph Labarg, 14, who were killed on farms north of Grant Park, Ill., when a twister struck in Kankakee county, about 40 miles south of Chicago. Clem Brickner, 26, Hebron, Ind., farmer, was killed when his farm home was demolished.

Relief Chief Hoffman Busy Setting Up Staff

By The Associated Press

WASHINGTON, April 8—Paul G. Hoffman today pitched into the job of setting up a staff to get the multi-billion dollar European recovery program into operation.

The new ERP boss has 5,000 or more job applications ready for study. But officials expect him to turn to the state department at the outset for key assistants.

Jerusalem Is Faced With Water Shortage

By The Associated Press

JERUSALEM, April 8 — This Holy City, already short of food and torn by civil strife, was threatened today with a critical water shortage.

An official announcement said one water supply source, "for the time being, is interrupted." British Mayor Richard Graves appealed to the city's 160,000 inhabitants to use tap and cistern water sparingly.

An unofficial but reliable source said Arab attackers had severed a water pipeline from Ras El Ein, 15 miles northeast of Tel Aviv. Jerusalem's second water source, Ain Farah Springs, is restricted by lack of fuel oil for pumps.

SHOWS NO SIGN OF INTENTION TO END STRIKE

Faces Heavy Fine for Each Day Work Stoppage Continues.

By The Associated Press

WASHINGTON, April 8—John L. Lewis confronted the choice today of ending the 25-day coal strike or risking heavy contempt of court penalties for each day it continues.

There was little to indicate, however, that the United Mine Workers chief meant to comply immediately with the back-to-work order despite the contempt citation slapped on him late yesterday.

Top government officials said Lewis instead appeared to be digging in for a finish fight in the courts.

That fight is scheduled to start Monday before Justice T. Alan Goldsborough, the same judge who fined him and the union $3,510,000 in 1946 for defying a similar court order. The fines later were cut to $710,000 by the supreme court.

The government paved the way for a possible new contempt trial when it asked Goldsborough to order Lewis to "show cause, if any" why he and the UMW should not be punished for ignoring the strike-end directive issued last Saturday night.

Promptly Signs Order

Goldsborough promptly signed the order, which also calls upon Lewis to say why he shouldn't be held in both criminal and civil contempt. This leaves any possible penalties entirely up to the judge. He could order a jail term as well as a fine if he found Lewis guilty.

Lawyers for Lewis accepted a copy of the contempt action barely two hours after the citation was issued.

Lewis had made no move to halt the strike since the first court order was issued by Federal Judge Matthew F. McGuire. Instead, his attorneys asked Goldsborough to dissolve the McGuire order on the grounds that it is unconstitutional. They argued that the 400,000 soft coal miners are free agents, striking because they want the pensions authorized by the 1947 contract.

On Monday, Goldsborough will dispose of these three major questions:

1. Whether the McGuire order should be upheld;

2. If so, whether it should be extended to the full 80-day injunction called for under the Taft-Hartley act and;

3. Whether Lewis and the union are in contempt for not ending the strike.

If they fail to clear themselves of the contempt citation Monday, a trial will be held Wednesday.

Bargaining Resumes

Lewis meanwhile was engaged in another kind of fight on the side. He sent seven UMW officers and district presidents to meet with a committee of eight representatives of the operators yesterday, as an outgrowth of the McGuire order. They promptly got into a hot argument over their authority.

Meanwhile a state-by-state check revealed at least 362,000 workers were idle in the 25-day old soft coal walkout.

The bulk of these were members of John L. Lewis' United Mine Workers—400,000 in the soft coal fields demanding $100 a month pensions and nearly 25,000 eastern Pennsylvania anthracite miners who walked out this week in sympathy.

The other 137,000 were in related industries crippled by the continually increasing coal shortage. At least 70,000 railroaders were furloughed together with 45,000 steel workers.

Iron Age estimated by the end of this week the coal walkout will have caused the loss of 600,000 tons of steel.

Pennsylvania had the largest number idle in related industries —about 25,000 not including the anthracite workers. Bethlehem Steel Corp. took the brunt of the cutbacks with 22,500 workers laid off at its Bethlehem and Johnstown plants.

Illinois listed 18,000 to 20,000 workers made idle.

West Virginia had 17,000, Alabama 13,500, Ohio 13,000, Virginia 11,600, New Mexico, 11,000 and Maryland 8,000.

Other states in which coal caused idleness ran 1,000 or more were New York 4,150, Indiana 3,700, Kentucky 3,500, Massachusetts 2,100, Utah 1,890, Michigan 1,500, and Tennessee 1,000.

Every day brought new cutbacks in the steel industry.

EMPTIES BEHIND SCHOOL

UPPER SANDUSKY, April 8—Burglars who entered the Union school building here Tuesday night obtained an undetermined amount of nickles from a coke vender and a few bottles of chocolate milk from another "cooler" case. The empty milk bottles were found Wednesday behind the school. Police are investigating.

Iron was once classed as a precious metal, more valuable than silver or gold.

...although his health was poor, Shorty had no wish to get out of the Army. He was only five-feet-four, but he was all soldier.

WHEN HE LEARNED his outfit was going overseas, Shorty had to fight a personal campaign to go along. He was the oldest man in the unit, and his friends didn't think his health would stand up under the strain of field duty.

"He had 111 things wrong with him—from varicose veins to arterio-sclerosis," said Lt. Edward Sasson of Los Angeles. "But he wasn't looking for a way out."

Shorty hated the Germans. He hated them in the last war, too, and won the purple heart and three wound stripes fighting them in France. He waved those wound stripes to clinch his point—that he had earned a chance for a return bout with the enemy.

"Leave me tell you," he said with a deeply serious look on his gnome-like face, "I'll get those Germans."

TODAY A SMALL GROUP of officers who knew and loved the lion-hearted little man stood around a jeep near the frontlines and talked sadly of how the Germans finally got Shorty.

"We'd just taken a town," said his company commander, Capt. James Kuhns, Greensburg, Pa., "and Shorty and two other men heard there still was a German machinegun nest giving us trouble in one of the buildings.

"It wasn't the job of the operations sergeant to knock it out, but you couldn't keep Shorty from going after those Germans. He was armed only with a pistol, but the two men with him had carbines. Shorty told them: 'Okay, I'll go out and draw their fire, and then you boys give it to them.'

"He edged out but the Germans caught him with the first burst and mowed him down. He died before he knew the other men located and wiped out that machinegun nest. That was like Shorty—sticking his own neck out."

"POOR OLD SHORTY," one officer said. There was silence for a moment, and then another officer laughed reminiscently.

"Remember the time that young lieutenant walked up to Shorty and told him to take his hands out of his pockets, and Shorty just looked at him and said, 'Listen, recruit—?'"

For a quarter of an hour they stood there within a few hundred yards of the front lines telling legends of Shorty. They said he never knew his own age because he had no birth record.

"He was the best damned soldier in this division," said Maj. Nathan M. Quinn of Spencer, Mass.

Shorty would rather have had that sentence on a white cross over his grave than his own name—Sgt. Joe L. Plotnick, Baltimore, Md.—Because when he was alive he knew he was "the best damned soldier" in any division.

He wouldn't have been Shorty if he hadn't thought so.

In the Service

S/S Charles L. McCann, 29-year-old parachutist of Marion, recently was promoted to his present grade. He is currently working as mess sergeant and is assigned to Service Company, 511th Parachute Infantry Regiment stationed at Camp Haugen, Hachinohe, Japan. His home address is 249 Uncapher avenue.

* * *

Capt Neil J. Sharkey of King avenue, ski trooper in the 38th Regimental combat team, participated in the winter maneuver, "Operation Timberline," high in the Colorado Rockies near the Continental Divide. The operation lasted one week. Up where the air gets thin and the deadly cold seeps through the heaviest garments, two miles above sea level, the men of the 38th RCT lived, skied and fought the "enemy" in some of the most rugged mountains to be found in the United States. For the first time in this type of operation P-80 jet-fighter planes operated in close coordination with the ski troops in their grim struggle against the elements and the "enemy."

WESLEYAN SERVICE GUILD ENTERTAINED

The Wesleyan Service Guild of Prospect Street Methodist church was entertained Tuesday night at the home of Mrs. Kenneth Connelly of 501 Summit street, with Mrs. W. E. Pride and Mrs. Bernard Brooks serving as assistant hostesses. Devotions were conducted by Miss Ruth Schott, and a responsive reading was led by Mrs. John Reidel. The program topic, "New Malaya," was presented by Mrs. Warren Setter.

Twenty-four members responded to roll call and guests were Mrs. Willis Meier, Emelie Pride and Patricia Connolly. The Guild voted to contribute $20 for mission work, to be divided equally between home and foreign missions. Plans were furthered for establishing a nursery at the church and to open it May 2. Plans were completed for the Mother-Daughter party to be held May 4 at Ringer's Inn. Named to serve on the program committee for the party are Mrs. Loren Starner, chairman, Mrs. Ronald Schabert, Mrs. Delmar Risch and Mrs. Howard Mitchell.

RETURN FROM WASHINGTON

Miss Lesley Berry of Thompson street and Miss Elizabeth Ann McCloskey of Lee street have returned from Washington, D. C., planned during the blooming of the Japanese cherry trees. They also toured Arlington National cemetery, Alexandria, Va., and visited other points of interest. While in Washington they visited Rev. and Mrs. L. V. Rodgers and daughter, Lenore, former residents of Marion. Rev. Rodgers served as pastor of the Forest Lawn and Lee Street Presbyterian churches here and is now serving a pastorate in Washington.

So Much for Wisconsin

THE crystal ball that politicians look into to discover hidden meanings in presidential primaries will have to be rubbed to a gleaming shimmer for Wisconsin.

In 1944, Thomas E. Dewey, Harold E. Stassen and Douglas MacArthur finished one, two, three—in that order. Wendell Willkie, gathering himself for a comeback, finished out of the money and never ran again. Dewey got 17 delegates, Stassen 1, MacArthur 3. An oddity of the race was that Dewey had asked delegates committed to him to withdraw and Stassen and MacArthur were both in the Pacific theater of war. Only Willkie was willing to run, and he lost.

This year there was nothing passive about the attitude of the three survivors. Stassen and Dewey ran as hard as they could and MacArthur's backers displayed much zeal, but when the results were tabulated, Dewey had pulled up lame, MacArthur was a poor second and Stassen a surprising first—a triumph for the Wisconsin faction led by Senator Joseph R. McCarthy, which backed him, McCarthy, who licked Robert LaFollette Jr. for the U.S. senate in 1946, was bidding for control of the Wisconsin Republican party. MacArthur was backed by former Governor Philip LaFollette, Dewey by organization "regulars."

On the face of it, what happened seems to indicate that Dewey, who had won all the state's delegates in 1940 and most of them in 1944, went to the post once too often. Gen. MacArthur's widely publicized candidacy failed to develop into a runaway in the state where he was expected to be strongest. Stassen had the advantage of running in a state where he is well and favorably known and where he was backed by the strongest of the factions bidding for control of the Wisconsin Republican party.

The Plow on the Plains

CONSERVATIONISTS long have feared dust bowl conditions of the 1930's would be brought back by wartime cultivation of semi-arid lands.

Their fear became stronger last week when the worst dust storm in 10 years struck Dallas, Tex. That dust once was topsoil in the high plains of Texas and Oklahoma, where $2.75 wheat has resulted in 500,000 acres being put to the plow. Much of this land was reclaimed from dust and restored to grass in the late 1930's.

The world needed American grain, and America responded. Grasslands in the semi-arid belt were cultivated. Now a dry winter has resulted in that land's topsoil being reduced to dust to be lifted by the first high wind.

America pushed its soil productivity to the utmost to meet wartime needs. Nature is beginning to exact payment.

This Is What We Mean

PAUL G. HOFFMAN, president of Studebaker Corp., has as good a chance to make America's new dollar diplomacy work as any American who could have been chosen to head the foreign aid program.

He is one of a new type of American businessman produced by an age in which private enterprise is challenged to prove the superiority of private enterprise. He has proved not only his own ability to succeed in a free competitive system but his ability to grasp the relationship of the system to society as a whole.

In contrast with businessmen whose understanding of competition is limited to things with direct bearing on their own actions, Mr. Hoffman has been a prime mover in a number of organizations devoted to clarifying the whole picture. This is his highest qualification for the administration of the foreign aid program, which is vastly more than an ordinary business project.

His hardest job will be to handle the paradox of American capitalism taxing itself to help poverty-sharing socialist regimes. He must show individuals restrained by bureaucracy how they can rise above its restrictions to produce the things that will make Socialism seem a defeatists approach to their economic problems. He must do this against the obstructionism of Socialist governments. It won't be easy. He has accepted trusteeship of one of the boldest experiments ever tried in international relations.

Numbering the New-Born

STARTING next year, babies born in the United States will be given serial numbers. All numbers will begin with the digit 1. The next two digits will indicate the state, the next two the year, and the next six the baby's place in the numerical sequence of births. For instance, the first 1949 baby born in Alabama will be No. 101-49-000001.

This serial number will go on the citizen's important papers, such as his birth, marriage, divorce, insurance and death documents. It will be up to him not to confuse it with his social security number, his military service number, his auto license number and his home and office phone numbers. As the old, unnumbered generations die off, they will be supplanted by the hosts of the well-ordered future, all tagged at birth; and low numbers will not be granted those making special application to the registrar of vital statistics.

Scanning the Record

By George E. Sokolsky

Only Force Can Hold Communist States Together.

LOOK at a 1938 map of Europe and compare it with a 1948 map. A process of assembling states into a universal state has been continuous during that ten-year period, and the number of countries permitting representative government (what is so often loosely called democracy) has decreased.

In the new universal state must be included Albania, Bulgaria, Czechoslovakia, Finland (partly), Germany (partly), Hungary, Poland, Rumania, the Soviet Union, the Baltic Republics (Latvia, Estonia, Lithuania), Yugoslavia. To these European countries must be added, as included in the Eurasian universal state: Afghanistan, North China, including Manchuria, Korea, North of the 38th parallel, Mongolia.

SOKOLSKY

The Eurasian universal state possesses no linguistic, racial, religious, historical or economic homogeneity and must therefore be held together by force. There can be no other way. Nor is it possible to suppose that any process of assimilation can be devised which can in any practical period of time achieve homogeneity. The Soviets therefore have adopted a policy of local autonomy so that an uzbeg may remain an uzbeg so long as he is obedient to his overlords. In a non-assimilable universal state of this type, representative government is impractical and dangerous. The police state exists because there can be no alternative to it.

Conflict Starts

As long as the Eurasian universal state was confined within the boundaries of pre-war Soviet Russia, the ruling power dealt with peoples who had traditionally been accustomed to being mastered and ruled; who had no tradition of personal freedom and no philosophy of equality before the law. Once the Eurasian universal state crossed the Bug river into Poland, it came into conflict with western civilization as exemplified by an inherent assumption of personal liberty and resistance to the power of a ruling class. This conflict becomes intensified as the Oder river is crossed into Czechoslovakia and Germany and must meet defeat beyond the Elbe.

One of several political reasons for the ease with which the Eurasian universal state conquered the countries west of the Bug without much military effort was the inability of Europeans to organize representative government on a simple two-party basis. They hoped to arrange government responsibility with a multitude of political parties and by the use of proportional representation. This method while appealing to the liberal mind actually produces paralysis and gives power to minorities, often alien and unassimilable.

For instance, the Czech government, which the Eurasian universal state so recently absorbed, included the following parties. Communist, Czech Socialist, People's party, Social Democrat, Slovak Democrat, and two, the minister of foreign affairs and the minister of national defense belonging to no party. In a word, it was not responsible party government but a coalition of non-cooperative, antagonistic elements.

Two More Parties

Outside the government were two additional parties, Slovak Labor and Slovak Freedom party. Of 300 deputies elected to the constituent national assembly, only 93 were of the dominant party, the Czechoslovak Communists, but they controlled the government. This minority in time affiliated their country to the Eurasian universal state, which means a submission of their people -in many respects a western European people -to Asiatic concepts of the relation of subject to ruler, of man to the state. How long Prague can suffer the humiliations of urga, it is difficult to say. But that is what happened to it.

Westerners do not readily understand the process of self-destruction which has moved formerly free European countries into affiliation with the Eurasian universal state. Certainly, none of the 13 European countries listed in this article any longer permit any form, however primitive, of representative government, nor is personal liberty of any kind tolerated. Those European countries have been restored to the empire of Genghis Khan, whose hens attempted in much the same territory—but not so westward in Europe—to hold so many unassimilable peoples together.

Finally, there is this to learn from what is happening in Europe: namely, that homogeneous nations have a better chance of resisting absorption and spiritual annihilation than states which are composed of minority groups, particularly unassimilable elements who resist indigenous social customs and whose spiritual affiliations may be elsewhere. France, for instance, is more capable of resisting an external foe than Czechoslovakia, Sweden than Yugoslavia.

A Victim of Minorities

By Raymond Moley

THE American visit of Eamon de Valera should forcefully remind us of the dangers we face when we multiply political parties. After years at the head of Eire, de Valera failed to obtain a clear majority in the dail. He has been succeeded by a government made up of a strange conglomeration of splinter parties whose only objective seems to be to hold the reins of power.

The new government is sustained by parties both to the right and the left of de Valera. Clearly, this patchwork government can have little power in dealing with England. Nor can it constructively plan the economic progress of the nation. Such a weak government can only muddle along until some of its parties break away and join de Valera, or, what is more serious, a demagogue may come along offering something resembling fascism.

MOLEY

Proportional representation is blamed by de Valera's followers for this situation. That form of election was accepted largely because Lloyd George favored it and because many theorists in Eire thought it to be the perfect means of attaining democracy. This system is almost perfectly designed to prevent or destroy two-party government and to bring to the surface representatives of every vagary that seeks public attention. Until the last election, de Valera's party, the Fianna Fail, succeeded in electing a majority of the Dail, despite the presence of seven or eight small groups. This time, he failed by a narrow margin, and now the assorted minorities prevail.

Destroyer

In the years between the wars, the multi-party cancer destroyed most of the constitutional governments of Continental Europe. We now know the dreadful result. Eire can go the same way, unless responsible leaders in the larger parties there recognize the danger and agree to the rule of a party large enough to represent the national will.

Those who assert that an absolute majority is essential to sustain a government argue for something that is neither democratic nor orderly. Abraham Lincoln and Grover Cleveland and Woodrow Wilson were minority Presidents — Lincoln for one term; Cleveland and Wilson for both. In each case, the winner lacked a majority of popular votes. But the virtue of our oft-denounced electoral college is that it prevented splinter parties from playing havoc with the final choice. This is the most powerful argument, by the way, against the abolition of the electoral college system of election.

Power To Few

Small parties seek control by that sinister thing called a balance of power. This gives a few dissidents power to frustrate millions of regular party members. Much of President Truman's trouble lies in the use made of this technique within the Democratic party by his predecessor. Splinter minorities were induced to vote for Roosevelt because they were thus assured of getting disproportionate attention from the Administration. Fifteen or twenty million Democrats loyally voted for their candidate, but it was the additional five or ten million that got all the gravy. That marginal vote is now following Wallace.

When will people learn that, while we want small minorities free to do as they choose, we have a prior need to be governed by parties that are large enough to assure stable government?

A Problem for the Networks

Republican officials have refused to change the date of the party's national convention, which conflicts with the Louis-Walcott fight.

As far as the GOP is concerned, Louis and Walcott are just a couple of guys named Joe.

The Republicans probably figure that theirs will be the better show, since the boys won't be working with gloves on.

Moreover, at Philadelphia, there will be no neutral corners.

Admittedly, a political battle-royal attracts almost as much interest as a pugilistic main event. It's a tossup which ring would draw the biggest listening audience, the one with the hats or the heavyweights.

Still, the Republicans are running a real risk, publicity-wise. If Walcott knocks out Louis, they'll find their nominee's picture on page nine of the second section.

Time To Leave

From News of Other Years

TEN YEARS AGO

It was Friday, April 8, 1938.

Premier Leon Blum of France formally announced the resignation of his government after the senate had voted down his demand for dictatorial powers over French finances.

Misses Isabelle Uncapher of Walnut street, Miss Josephine Haley of Edison, and Miss Jessie Henderson of Iberia, members of the staff at Thomas A. Edison Junior High school, and Miss Elizabeth Conley of South State street, an instructor at Central Junior High school, left on a motor trip to Buffalo, Niagara Falls and New York City. In New York they were to be the guests of Miss Margaret Watrous of East Center street, who was on leave as an instructor at Edison Junior High school and was attending Columbia university.

Harry L. Dowler, Marion attorney, was elected president of the Marion Graduate association of Phi Gamma Delta fraternity at a dinner held at Hotel Marion.

The Junior class of the Agosta High school presented a play, "In the Light of the Moon" in the high school auditorium. Taking part were Kathryn Withrow, Jane Dutton, Ila Chapman, Freda Rush, Gladys Rush, Zella Green, Scharlene Butler, Robert McMaster, Vernon Hoch, Clifton Imbody, Howard Wygle and Raymond Schmidt.

TWENTY YEARS AGO

It was Sunday, April 8, 1928.

This was Easter Sunday and the weatherman delivered snow flurries and wintry winds. Despite the inclement weather motor traffic was heavy and 11 persons were killed in Ohio.

Daughters were born to Mr. and Mrs. L. H. Detrick of Olney avenue and Mr. and Mrs. C. P. Pitsenberger of Olney avenue and sons to Mr. and Mrs. William C. Gorenflo of Sugar street and Mr. and Mrs. Robert Smith of Silver street.

Mrs. French Crow, Mrs. Frank Luist and Mrs. D. H. Lincoln returned from a three months' vacation visit with friends and relatives in California.

Robert Francis, student at Ohio Northern university, was a weekend visitor of his parents, Mr. and Mrs. John J. Francis of Kenton pike.

A birthday dinner was given in honor of Mrs. Molly Keeran at her home on Cherry street.

Lesson in Voters' Intelligence

By Walter Lippmann

THE Wisconsin primary has been an interesting experiment in how the American voters prefer to be dealt with this year.

Gen. MacArthur made no effort whatever to tell them anything, treating them as if they were primitive people who had not yet become self-governing and had to be ruled by mystery, magic, prestige and awe. Gov. Dewey talked at the people, using the nicely calculated points of an efficient public relations campaign. Harold Stassen talked with the voters and argued with them.

LIPPMANN

His showing is pretty good evidence that a great many people are in a mood to be persuaded and led rather than to be cajoled and wheedled and pushed.

This has an important bearing on the question which perplexes the administration, whether congress and the country can be persuaded, or whether they have to be excited and frightened, to support the draft, the additional appropriations, and the military commitments which all the well-informed and responsible deem necessary at this time.

There is no doubt that strong military measures taken promptly but without bluster and hysteria would give the maximum security at minimum cost and risk. But the Truman administration is very bearish about the capacity of the people to follow rational leadership, perhaps it does not know how to supply it.

Excitement

It is disposed, therefore, to resort to excitement, as it did over Greece and Turkey last year, as now over the Russian submarines off our coasts and other selected tidbits.

The trouble with using excitement as a device to pass necessary measures is that it aggravates the crisis which the measures are designed to deal with and, then, that it infects the government itself—as for example in the curiously complicated mishap over Spain, and the vote in the House and the Myron Taylor mission to the Vatican and to defeating because the people, if they are excited too often, begin to realize that they are being excited, and to wonder whether the crisis is real.

Gen. Clay's performance in Berlin is a striking example of how affairs can be well-conducted. Under great and deliberate provocation he has not lost face and he has not lost his temper.

A lesser man could easily have been tempted, with the spotlight of the world upon him, to strike an heroic pose, to declaim, to utter memorable and resounding phrases, and to make himself the central figure in a grand opera. But that lesser man, though he too broke the Russian blockade of Berlin, would in fact have lost the game which the Russians chose to play. For he would have caused the Germans and the masses of the people of Europe to feel that American power does not promise security but a fearful explosion which would hurt our friends as much as our opponents.

Gen. Clay Calm

The fact that Gen. Clay has been as calm as he has been firm, that he has been as rational as he has been resolute, will enhance, not merely maintain, the prestige of the Allies which the Russian maneuver was designed to test and impair.

No doubt there will be other maneuvers. It is comforting to know that a man of Clay's exceptional virtue, of his strength and moral refinement, is to remain where he is.

There is considerable discussion in the country—the question was raised by Gov. Dewey in his Wisconsin speeches—about the role which military men are playing in the government. No generalization on the subject makes any sense. Nothing can be said about all the generals and admirals and their civilian chiefs which is remotely true of all of them. Nothing can be said about the "military mind," which is true of all the military minds.

What can be said, I think, is that in the absence of coherent, considered leadership and the exercise of authority in the White House, authority is scattered among the individuals and among bureaus. As a result, there is among them, in matters of high conflict and competition to make prevail what this individual or that happens to think is in the national interest.

It is this condition of affairs—which it is not easy to describe clearly—that is creating an impression of what is usually known as militarism. We are not now, I am satisfied, the victims of this dangerous disease. But our immunity to it is not what it should be. That is not because there is anything resembling a genuine militarist movement but because the world crisis is so great, the civilian power so weak, and the military establishment so imperfectly unified.

There is nothing as yet that could not be cured by an efficient administration with a genuine mandate from the people.

Aids Aching Feet

By The Associated Press

DETROIT — Clarence V. McGuire's sympathy for persons with aching feet has brought about two inventions to help them.

Several years ago McGuire developed pneumatic shoes for men who must stand while at work. His latest is a pneumatic mat.

The mat is made of rubber but compressed air actually supports the weight of the body. Small, overlapping cells with sloping elastic walls yield with pressure.

McGuire, 58, is a former automobile and tire company executive.

Ike and the Draft

"MAY Draft Eisenhower To Run For Presidency"—Headline.

Doctor—Take off your shirt and pants!

Ike—That's a fine thing to ask of a college president!

Doctor—This is a draft examination and

Ike—Now, look, you know how I feel about the presidency.

Doctor—The question of volunteering no longer holds; you are being drafted.

Ike—I claim I'm exempt.

Doctor—On what grounds?

Ike—Severe indigestion.

Doctor—Your stomach was always okay.

Ike—That was before all those testimonial banquets.

* * *

Doctor—Strip for your physical.

Ike—That is necessary only in case of war.

Doctor—If you don't think being in a presidential contest is war you're crazy. (Using the stethescope) Your lungs are perfect.

Ike—Is that important?

Doctor—A lot of men have reached the White House on little else. How are your eyes?

Ike—Not too good; I forgot to change at 86th street the other day and got out in the Bronx instead of at Columbia.

Doctor—Any ear trouble?

Ike—Yes. I had hoped to hear only college songs, football cheers, faculty reports and student petitions and here I am getting bugle calls again.

Doctor—In both ears?

Ike—One ear gives me the most trouble.

Doctor—Which one?

Ike—The one nearest the Democrats.

* * *

Doctor—Stand on one foot and jump up and down ten times. Good! Now see if you can jump up and stay in the air.

Ike—Nobody can do that.

Doctor—You haven't been watching Hank Wallace.

Ike—I must get out of this some way. How about my height?

Doctor—Nobody thinks you are too short for the White House except MacArthur and Marshall.

Ike—But my feet hurt.

Doctor—You never complained of it before.

Ike—But I'm now being asked to use Truman's shoes!

* * *

Doctor—How about your dependents?

Ike—I have a wife, a university and three publishers.

Doctor—Are you in an essential or non-essential occupation?

Ike—It was essential up to the time I got Lou Little to stay.

Doctor—I'm afraid I'll have to give you an "A" card.

Ike—No. There is one way out. I can claim I am a conscientious objector.

Doctor—You! After winning the toughest fight in history?

Ike—(feelingly)—After all in that one I didn't have to hold the Democrats together, solve inflation, balance the budget or understand Russia!

President Truman's reaction to the demand that he take a powder seems to be expressed in a defiant, "I am determined to show that while there may be evidences of vaudeville in the Washington scene I am not going to do a disappearing act."

The Ringling Brothers herd of circus elephants marched into New York the other day. As they swung through Second avenue, a fellow who had tottered out of a cafe, hurried back in and focusing on the barboy with difficulty demanded, "Look at me; do I seem okay to you?"

But the best conclusion hastily made by anybody was that of Elmer Twitchell as he ran into the elephant herd most unexpectedly. "They're on their way to Radio City," he declared. "Some Hackensack housewife won 'em by completing the sentence 'I like cheerio breakfast food because.'"

The Turning Wheels

By TRUMAN TWILL

WATCHING the wheels go 'round is a lifelong study, beginning with the wheels that spin and skid on the way to the hospital where the baby is going to be born.

Someone in a uniform presses a buzzer and they come with a wheelchair to transfer the expectant mother to the proper department where she will be transferred, in due time, on another cart to the scene of the blessed event.

The baby will be installed comfortably in a crib on wheels so he can be rolled hither and yon, pending the day when he is taken home on wheels to get accustomed to his new surroundings, including a baby buggy.

When he outgrows the buggy they give him a tricycle, to replace the wagon he has outgrown in the meantime, and this provides transportation until he is old enough to twist the old man's arm for a bicycle.

The bicycle is replaced, when the law allows, with any of several versions of a motorcycle and finally by the family automobile. Then the child, still incredibly young for his years, gets on a train and rolls away to a life of his own, complete with more wheels that will spin and skid on the way to the hospital where another generation will start rolling.

And there will be still more wagons, tricycles, bicycles, plus lawnmowers, casters that catch in rugs and fall out, wheelbarrows, hose carts, ambulances, fire engines, garbage trucks, moving vans, lunchwagons, hospital carts, rolling pins, automobiles, trains, buses, portable bars, teawagons, roller skates, roller coasters, airplane wheels, hoops, movable stands and a million wheels of various sizes that keep going 'round and 'round.

Until finally it's all over and the last few wheels involved in one human life roll slowly to their destination—and that's that. But the wheels keep turning—the cycles of this and that go full cycle and begin all over again—the roulette wheel is given another spin—the wheelchair waits at the end of the corridor—the baby buggy that won't be needed any more is given to the neighbors—the kid next door gets a new tricycle—and if the fellow who invented the first wheel could have known what he was starting he'd have chucked the whole idea before it got out of control.

"Honor Roll" Embarasses Berlin

By The Associated Press

BERLIN—A red-faced city government recently discovered that the list of Berlin's "honorary citizens" still bears the names of Adolf Hitler, Hermann Goering, Josef Goebbels and a number of other leading Nazis.

An immediate purge was ordered which will also include the restoration of honorary citizenship to persons from whom it was withdrawn during the Nazi era on racial or political grounds.

The only person to whom honorary citizenship has been granted in Berlin since the war is the white-haired, septuagenarian Wilhelm Pieck, Germany's No. 1 Communist and co-chairman of the Russian-sponsored German Socialist Unity party.

Pieck was made "Ehrenburger" by the Communist-controlled city government which was installed by the Russians of the city and which was swept out of office when Berlin held its first postwar election on Oct. 20, 1946.

State Liquor Dept. Keeps Close Watch in Issuing New Permits

...the permits issued last year ... were for sale of liquor by ...class, 1,099 for private clubs ...2,182 for night clubs. These ...types of permits usually scru...ed the closest.

...a comparatively simple mat... to apply for a liquor permit. Before it is issued, however, the liquor department's permit division has a complete dossier on the background, character and business of the applicant.

Take the case of a man who wants to sell high powered beer by the glass. He gets an application blank from the liquor department. It is a single sheet of green tinted paper, double spaced type on each side. There are 28 questions to be answered. Any fellow with just ordinary gumption ought to be able to fill it out.

The liquor department wants to know: what kind of business you operate and where; who owns the property or holds the lease; what other persons have a direct or indirect interest in the business; your age, sex and status of citizenship; have you ever been convicted of a felony; how close is your business to a church, school or public playground, and is it in a business or residential neighborhood.

The applicant has to swear to his statements before a notary public. Then he sends in the form together with a certified check covering the license fee. It ranges up to $1,000 for a night club permit.

Applications are handled at five offices — Cincinnati, Columbus, Toledo, Cleveland and Akron. A master file is kept at the main office at 33 North Third street in Columbus.

Each office has from five to 10 examiners. The examiner in charge of the district where the application originated delegates an examiner to make an inspection.

Equipped with a five-page questionnaire, the examiner goes out to investigate the applicant. He gets detailed information on the ownership of the property, personal history of the applicant, the neighborhood, the permit premises. He then makes a summary of his findings and recommendations.

If the applicant is a woman, the examiner wants to know whether she is fronting for a man who has a past history to hide.

R. S. Wood, chief of the permit division, said most applications are filled out merely with the services of a notary public. In cases where the application involves a change of ownership, however, an attorney is usually employed to handle complicated details relating to bills of sale.

References Required

An applicant isn't required to supply character references. The state examiner, however, checks with the police, sheriff, and residents of the neighborhood for their opinions of the applicant's character.

The examiner's report is filed with the district office and a copy sent to the main office in Columbus. The application then is ready to be processed.

For most permits, applicants are required to post bonds with the state department of taxation to guarantee payment of the state sales tax. An applicant for a private club permit also has to post a $1,000 bond which can be declared forfeit in event false statements were made.

Liquor Control Director Dale Dunifon recently acted to collect $113,000 from 28 bonding companies in the revocation of 113 private club permits issued during the closing days of the Lausche administration.

All permit applications reach the desk of Division Chief Wood. If he approves a permit, it goes to the liquor control director, Dunifon reviews the application, and has the final say.

Rejection of a permit, however, can be appealed to the four-member state board of liquor control within a period of 30 days. The board dockets the appeal for hearing. It can either reverse or uphold the liquor director's decision. The board's decision likewise can be appealed to the Franklin county common pleas court.

Under a law enacted by the 1947 legislature the liquor department has the right to reject any application for a new permit for a business within 500 feet of a church, school, library, or public playground. The department is required to advise the person in charge of such an institution of the right to be heard before issuance of a permit for sale of liquor within proximity of the institution.

Procedure In Hearing

If a hearing is requested by an institution, Dunifon has all parties notified and sets a date. He generally delegates William Morris, assistant permit chief, to hold the hearings.

Such hearings usually are held on Friday and, since enactment of the law, have averaged about six a week. Some times the department rejects a permit for a business near an institution even if no objection is filed.

Rejections of such permits have been from 50 to 55 per cent of the number of applications but applicants have the right to appeal.

In considering applications for liquor permits, Wood said the permit division has to keep records on wet and dry territory in the state, and also on the quota system.

Sale of hard liquor by the glass is banned by local option in approximately 70 per cent of Ohio's geographical area.

Under the quota system, permits for sale of liquor by the glass, private clubs and night clubs are limited on the basis of population. In metropolitan areas, most quotas have been filled, particularly for sale by the glass in taverns.

Permit Chief Wood said most pressure brought on the division is for prompt action on applications. Many applicants, he said, become impatient when they have to wait.

"There is not so much political pressure as you might think," he said when asked whether applicants attempted to throw their weight around in getting approval for a liquor permit.

DUROCHERS ADOPT GIRL. District Judge Tom Renfro (left) shows movie actress Laraine Day and her husband Leo Durocher, manager of the Brooklyn Dodgers baseball team, his order issued at Fort Worth, Tex., (April 3) granting their request to adopt a four-year-old girl formerly in the Texas Children's Home and Aid Society. The adoption was approved at brief hearing in 98th District Court in Fort Worth, Tex. April 3.

MOTHER SENTENCED IN DAUGHTER'S DEATH. Mrs. Shirleen Kunin, Beverly Hills housewife, stands with downcast eyes beside her attorney, Richard Maddox, in Los Angeles, and hears herself sentenced to prison for one to ten years in the death of her two-year-old daughter, Denise. Her pleas for probation and new trial were denied.

In a statement today Police Chief William E. Marks gave a warning to holders of delinquent parking tickets.

The text of the chief's statement was:

"During the winter there has been a tendency on the part of traffic violators to neglect taking care of their traffic tickets promptly at the traffic bureau.

"Any violators now having unpaid tickets will be given until April 17, to pay whatever delinquencies they have standing at the bureau.

"We hope all violators will cooperate in this matter in order to eliminate the necessity of having affidavits filed against them in municipal court.

"The tickets can be taken care of 24 hours each day, if you have your ticket or notice sent to you. If you not have it it can be handled from 10 a. m. until 6 p. m. Monday through Saturday.

CENTRAL PUPILS PRESENT 3 PLAYS

Comedies To Be Staged Again Friday Night.

An audience of approximately 600 persons filled the Central Junior High school auditorium last night for the first presentation of three one-act plays by the ninth grade pupils of Central school.

The plays, "A Penny Saved," "Jimmy, the Genius," and "It's Greek to Me," all comedies involving the problems of teenagers and their families, were well received by the audience and proved to be well directed by Miss Zelma Howard and Norman Fogt, members of the Central school faculty.

Another presentation of the plays will be Friday night in the school auditorium. That night, the Central school orchestra, under the direction of Homer Huffman, will play.

Music preceding the plays last night was by the Central school band under the direction of George Lane.

Between the plays, special numbers were given by an octette and by Regina Haas, accordionist. Members of the octette, Don Milliser, Don Welsh, Fred Eyster, Bob Strawser, Bob Cooper, Dick Griffis, Loren Heiser and Don Meddles, were attired in costumes of the 1890's and sang songs appropriate to that time. Miss Haas played "Peg O' My Heart" and a medley of songs.

BRIDGE BLAST SUIT BLAMES O. FUEL GAS

By The Associated Press

CLEVELAND, April 8—Ohio Fuel Gas Co. is named defendant in civil suits asking $200,000 damages as a result of the Broad street bridge blast in Columbus last Aug. 21.

James D. Klinkert asks $100,000 damages; Arnutt Spohn $75,000 and Irene D. Murphy $25,000 in actions filed yesterday in Cuyahoga county common pleas court.

They accused the gas company of negligence, alleging it permitted conditions which caused gas to accumulate in concrete air chambers under a section of the bridge. When lightning struck the bridge, they charge, it apparently hit a metal pole, causing the gas to ignite and explode.

The three claim they were hurled 50 to 75 feet in the air and tossed into the Scioto river.

One woman was injured fatally and several others thrown into the river when the explosion tore up the southwest section of the bridge.

HAMILTON MANAGER SUCCESSOR INVITED

By The Associated Press

HAMILTON, O., April 8 — Hamilton city council last night invited one of its former members, Howard Wilson, to take the job of city manager but it was uncertain today whether he would accept the job.

The appointment was made, by at 4 to 3 vote, after Frank P. Buechner had resigned under fire.

Wilson did not attend the council meeting and was not available for comment.

Buechner, who had been under suspension since Feb. 18, said in a statement he had left the job because of "untenable political conditions arising from honest efforts in enforcing laws against organized vice."

His action came after common pleas Judge Fred B. Cramer had dissolved a temporary injunction which since March 17 had kept council from holding a public hearing of the Buechner case.

At the time of Buechner's suspension, he was handed a statement charging inefficiency, failure to get council together and failure to plan his work.

A native of South Bend, Ind., Buechner came here Oct. 3, 1946 from Superior, Wis., where he also served as city manager. Earlier, he had held manager-ships at Gladstone, Mich., and Piqua, O.

Secrets of a Meringue—

By CECILY BROWNSTONE
Associated Press Food Editor

Don't worry, if you're a new cooker, about producing a beautiful meringue—all the mysteries of their private lives have been solved into by cookery experts. There's no reason why the white of one egg and you shouldn't get along perfectly together.

In the first place, there are two kinds of meringues, soft and hard. The soft, fluffy, mile-high kind is used for the best lemon pies. The hard variety is used for that delectable concoction, meringue glacé, and for other delectable confections and trifles. Master the soft meringue directions given here and you have a cookbook recipe for the hard variety.

The hows and whys of beating egg whites, the method of adding sugar, the baking temperature and time—all these are matters of the greatest moment in meringue making's life. Two tablespoons of sugar per egg white for a soft meringue is the rule to remember. Add more sugar to each egg white and it will be less fluffy, less tender and, indeed, it won't be sweet enough. But watch out! Too much sugar makes for a gummy meringue, one that has a deposit of sugar crystals.

Use powdered sugar or very fine granulated sugar for meringues. Do not use confectioners' sugar because of the small amount of cornstarch it contains. And when a meringue recipe suggests that you add sugar gradually, do so. Gradually in this case means about a tablespoon at a time, sprinkling it over the top of the egg white and beating after each addition until the mixture is smooth and glossy. Slow and complete blending of the sugar is absolutely necessary. Try the taste-test to make sure the sugar is dissolved—if it's the least bit grainy, it's not.

Another word of warning. A meringue is temperamental and hates to stand around. Don't mix it until the pie is ready for it. The filling, if cooked separately, should be in the baked crust—cool and waiting. When the filling is baked right in the crust the whole thing must be cooled before spreading with the meringue. Anything is likely to happen if you want a meringue on a hot filling—it may "weep," shrink, get tough! "Weeping" means little beads of liquid accumulate on the meringue after baking.

In spreading the egg white mixture over the pie bring it to the very edge of the pastry and make a firm seal. It's said that this helps keep moisture from gathering between the filling and the meringue and prevents shrinkage. But don't smooth out the meringue—leave it rough if you want handsome sun-tanned peaks when it's finished!

A slow to moderate temperature is usually used for the modern pie meringue—325F. to 350F., and the time is about 15 to 20 minutes.

There are other places for soft meringues, by the way, besides a pie. Right now, when it's a good idea to use fruit without flour, try them on peaches or apples. Use large canned peach halves, fill with candied chopped pineapple and top with a spoonful of meringue: one egg white beaten with one tablespoon of powdered (not confectioners') or finely granulated sugar will be enough for about six large peach halves.

For an apple delight try the following recipe:

Meringue Apples

6 firm tart apples, ¾ cup brown sugar, firmly packed, cinnamon, lemon juice, 2 tablespoons butter or fortified margarine, ¾ cup sugar, 1 cup water, 2 egg whites, 4 tablespoons sugar.

Wash and core apples. Peel skin about 1/3 of the way down. Fill center cavity of each apple with 2 tablespoons brown sugar and sprinkle with cinnamon and a dash of lemon juice. Dot each apple with 1 teaspoon butter or margarine. Place in baking pan. Add the ¾ cup sugar to the water and stir over low heat until thoroughly dissolved; boil for 5 minutes without stirring. Pour syrup around apples and bake uncovered in moderate (375F.) oven 25 to 30 minutes or until tender, basting frequently with syrup in bottom of pan. Remove from oven and cool in syrup. Make meringue by beating egg whites until stiff but not dry. Gradually beat in 4 tablespoons sugar, a tablespoon at a time; continue to beat until smooth and glossy and mixture will stand in stiff peaks. Pile meringue on top of apples. Bake in a slow (325F.) oven for 15 minutes or until delicately browned. Serve cold with apple syrup and cream. 6 servings.

LETTERS FROM OUR READERS

DEFENDS CIVIL SERVICE

Editor, The Star: Reference to your recent editorial-relative to "Lavish Leave Allowance" in which you lamented the leave granted Federal employes in comparison with others, consider the fact that Civil Service employes must compete by examination for their jobs and they usually start at low salaries. The jobs are not political plums. Would you care to give up your present position and salary for a similar type of position with the Government at the Government salary? While Federal employes are probably seldom overworked they are likewise seldom overpaid. Labor has been getting one wage increase after another while we commute at the same salary and meet prices forced up by labor demands. We cannot and would not think of striking against our Government for more money. So why pick on the common public servant who has great respect for his country, its Government, its freedom and historical progress? We do not fill your paper with lamentations against the American way of life, or indulge in acts of crime and general wrong doings. We are entitled to one extra consideration. We pay six per cent of our salary for retirement while labor pays one per cent for social security. Figure the whole score and see who is cleaning the bush.

MARTHA SIDENSTRICKER.

During World War II Britain more than doubled its production of wheat, barley and potatoes.

The chief symptoms of asthma are attacks of difficult breathing, cheractized by a labored wheezing, coughing and, now and then, a slight fever.

Patients feel well between attacks so that today's treatment concentrates on preventing the attacks. In this connection it has been suggested that worries about family and financial matters may increase the tendency for the attacks to occur.

It is also important, in warding off these attacks, for the patient to be put in the best possible condition of bodily health, with rest, fresh air, sunshine, exercise and proper diet. Many times an attack may follow a simple cold, so efforts must be made to prevent colds. In other cases, the asthma may be brought on by fatigue or over tiredness.

Thus, it would appear that in preventing attacks of asthma, the living of a well-regulated life is of great importance. Persons who are subject to such attacks should eat their meals at regular times and avoid overeating. They should also avoid fatigue, and get plenty of fresh air and moderate exercise.

If a person has a severe attack of asthma, it may be important to place him in a hospital for treatment. An injection of epinephrine into a muscle or under the skin often will control the attack for several hours. This preparation is of no value given by mouth, and is rarely given by injection into a vein. It must be used cautiously in those patients with high blood pressure and heart disease. Some patients get relief by breathing in a watery solution of the epinephrine, which is vaporized before it is breathed in.

If attacks of asthma are mild, many patients are relieved by taking ephedrine. This drug may be taken by mouth. It may also be combined with other drugs, such as aminophylline or phenobarbital. The aminophylline may be given by injection into a vein to relieve severe asthmatic attacks. It may also be given in the form of a suppository introduced into the lower bowel.

Another measure which has been found helpful in relieving severe asthmatic seizures is the breathing in of oxygen mixed with another gas known as helium.

Morphine should not be given to the asthmatic patient because it depresses the centers of the brain which regulate breathing and coughing, thus making the attack worse.

Love's Perilous Path

By ADELE GARRISON

DICKY'S smile at Georges would have disarmed an advancing tiger, I told myself from the shelter of my "listening-in" post behind the guest room door of my father's suite, but the fugitive king of Trees, I was sure, did not know whether Dicky was angry or friendly. He was so stunned by the impact of what my husband had told him of Mary's attitude toward him that he could not grasp anything else.

I saw my husband glance at him sharply. Then he raised his voice.

"Georges!" he said sharply. "I'm going to take you to a room where you can be by yourself a little, think things over, and pull yourself together. I'm delaying our journey back until you make your decision about your wedding, nothing else. The minor things can wait. Come!"

The royal playboy got to his feet. He walked a few steps toward the door, then turned, and spoke with abrupt pleading.

"Will it not be possible for me to see Mrs. Graham before she goes back?" he said, and I gave a sigh of relief that he had not stipulated a delay of his decision concerning his wedding before seeing me.

I saw Dicky's lips quiver, and knew that he was stifling a grin, knew also that he would give me a merciless "ribbing" when he should see me, but his reply was casual.

"Oh, yes, she'll be around," he said easily. "I'll find her and have her wait for you here. Then, after you've had a little time to yourself, I'll come after you and bring you back.

"But I shan't stick around," he added hastily. "You'll want to see her alone, of course, but you'll find that she'll tell you exactly what I have said, only she'll put it in more ladylike language."

He permitted himself a broad grin at that one, I knew as much for my benefit, as to relieve his risibles a trifle. Then he and Georges went out of the room, Dicky meticulously locking the door behind him, for Georges' benefit, I knew. There must be no suspicion in the fugitive king's mind that I had listened to Dicky's scathing denunciation of him.

I waited only for the locking of the door before getting up from my "listening post," setting the slipper chair back in its place, and coming out into my father's living room. There I slumped in the most comfortable chair, and tried to relax from the strain of listening to the grueling which Georges had undergone at Dicky's hands.

We had both been mistaken about him, I told myself. His overgrown conscience — imagine Georges possessing one!—and not his pampered ego, had been responsible for the fantastic rhodomontade which he had offered to us.

I guessed that Dicky was a bit remorseful about some of the things he had said, and I winced at the memory of some of them, but I had common sense enough to realize that no half way measure would have done with Georges. He had to be beaten to the dust before he could see the truth, so blinded was he by his own fantastic belief.

But of one thing I was sure. Dicky had won the victory. Georges was too dazed just now to realize what was before him, but by the time he came to see me, I was sure that he would be prepared to accept the happiness in store for him, and to shove into the limbo of forgotten things the absurd notions he had been cherishing.

I was laying out my own campaign for dealing with him when I heard Dicky's cautious signaling knock upon the door. Springing up, I dashed to it, and admitted him. He waited only until the door closed before swinging me off my feet into a mad swirling dance around the room which left me breathless.

"Well," he said cockily as he deposited me in my big chair again. "Am I good, or am I good?"

In Plain Words

By James Marlow

WASHINGTON

THIS will try to unsnarl the John L. Lewis case up to date. It's moving to a showdown Monday.

To understand what's happened so far, and what will happen, keep these three key points in mind:

1. The cause of the coal mine shutdown—pensions. After eight months of arguing Lewis and the mine owners couldn't agree on the miners' pensions.

So on March 12 Lewis told the miners the owners had "dishonored their working contract. The miners quit March 15. They have not been back since.

James Marlow

2. The big question: Strike or no strike? Lewis argues that the miners are not striking. He says they're simply not "willing" to work.

He says they have the right to stop because their contract says they must work only when they're "willing." That's in the contract.

3. The Taft-Hartley labor law Lewis hates it. Passed last summer, it says that when the President decides a big strike threatens the public welfare, then—

He must appoint a board of fact-finders to look into the dispute. When the board finishes, if the strike still continues, then—

Government lawyers must ask a federal judge for a court order—an injunction—to stop the strike at least 80 days.

Now go on with the story.

On March 24—when the mine walkout was nine days old—President Truman set up his fact-finding board. The law says the board can compel witnesses to appear before it. The board ordered Lewis and the owners to come.

THE OWNERS SHOWED up but Lewis refused. Finally, a federal judge had to order him to go before the board. Then he did.

The board finally reported to Mr. Truman that Lewis' letter of March 12—three days before the miners stopped work—had "induced" them to stop. Still the miners didn't go back.

On April 3 government lawyers got a federal judge to issue a temporary order—called a restraining order—telling Lewis and the miners to go back to work.

This order was to be in effect 10 days. After that time the judge could decide whether to issue the 80-day no-strike order called for in the Taft-Hartley law.

BUT, DURING THOSE 10 days, the judge expected Lewis and the miners to obey his orders and go back to work. The miners still stayed away. And yesterday three things happened, bringing the showdown next Monday:

1. The government moved to get Lewis held in contempt of court.

2. Lewis asked the judge to throw out the temporary, no-strike order.

3. The government asked for a more permanent, 80-day no strike order.

The federal judge will start acting on those three requests Monday. Now take them one at a time to see what they mean:

1. Because the miners hadn't returned to work yesterday—four days after judge had issued the 10-day, no strike order—government lawyers asked the judge to cite Lewis and his union for contempt of court.

IF ON MONDAY the judge decides Lewis may have been in contempt—since the miners did not obey his order to go back to work—he'll order Lewis and his union to stand trial on contempt charges Wednesday, April 14.

(In 1946 Lewis, during a coal strike, ignored a similar, temporary 10-day, no-strike order. The judge cited him for contempt, tried him, and found him guilty. Lewis was fined $10,000, his union $700,000.

(If the judge again finds Lewis and his union in contempt, he can jail Lewis, or fine him and his union again.)

2. Lewis' lawyers asked the judge to throw out the temporary, 10-day, no strike order. They say it's unconstitutional. They argue:

NO COURT HAS A RIGHT, by issuing such an order, to violate a man's constitutional right not to work if he doesn't want to work. (Lewis argued the same way in 1946.)

3. Federal lawyers asked the judge to issue that 80-day no-strike order — or injunction— called for in the Taft-Hartley act.

The judge may not be able to handle all three requests on Monday. He may take up the contempt action first.

When Lewis ignored the no-strike order in 1946, he argued the judge had no right to issue it. The judge, finding him in contempt, said he should have obeyed it first and argued about it later.

The judge who is going to do the deciding is the same one who socked Lewis and the miners with the big fine in 1946: T. Alan Goldsborough.

391 ENTERED IN TROY'S EARLY CLOSING EVENTS

By The United Press

TROY, April 8 — The Troy Harness Racing association said yesterday it had received 391 entries for the 16 early closing events over the Miami county race course here from June 12 through July 3.

The early closers drew horses from nine states with Ohio owners leading the field with 296 entries.

Of the entries received for the early closing events, 39 were for the 28-pace to be raced on June 16. The 26-Pace scheduled for June 26 drew 38 entries.

The most valuable event, a 14-Pace for $2,000, to be raced closing day, drew 12 entries.

Stakes and purses during the 19 nights of racing will total $75,000.

JOCK SUTHERLAND IS AMNESIA VICTIM

By The United Press

CAIRO, Ill., April 8—Dr. John "Jock" Sutherland, coach of the Pittsburgh Steelers professional football team, rested in a Cairo hospital today, apparently a victim of amnesia.

Authorities admitted that Sutherland was a patient at St. Mary's hospital and that he was suffering from amnesia, although attendants at the hospital refused to admit they even had a patient by that name.

Dr. F. H. Russell, a Cairo physician, notified the Pittsburgh club that he was attending Sutherland and that the coach was "all right."

Russell said he was called across the Ohio river to Wickliffe, Ky., by Ballard county officials. They said they found the 59-year-old coach sitting in his automobile which was mired in a swamp near Wickliffe.

Sutherland refused to talk, Russel said.

"I couldn't tell what was wrong when I first got to him," he said, "and I'm not altogether certain yet."

Johnny Michelson, first assistant coach of the Steelers, said Sutherland had complained frequently of severe headaches during the Easter holidays while they were at Coatesville, Pa., lecturing to high school coaches.

The "Silent Scot" left his Pittsburgh office about two weeks ago for a combined business and pleasure trip through the midwest.

He visited football coach Wallace Wade at Durham, N. C., four days ago but after he left, no further word was received until he was picked up at Wickliffe.

Ballard county officials said when they found Sutherland, his car was bogged down in the swamp. They said the motor was "burned out." They identified him through papers he was carrying. Sutherland's nephew is expected here today from Pittsburgh.

Cards Swap Sisler For Phils' Lapointe, Cash

By The Associated Press

CLEARWATER, Fla., April 8—The Philadelphia Phillies apparently have solved their first base problem and the St. Louis Cardinals obtained promising shortstop insurance in a deal involving Dick Sisler and Ralph LaPointe.

The swap, announced late yesterday, brings Sisler to the Phillies in exchange for LaPointe and an unannounced sum of money believed to be around $20,000.

Top Notch Bouts Watched By 300 at First Fight Show

By BILL MURPHY

Of 12 amateur fights last night at the Armory at least four were of better than average quality and two had the earmarks of professional bouts. Approximately 300 fans turned out to see the first show put on by the Marion Boxing association.

Quality fighters indulging in the fights and ranked as the best bouts according to fan response included Don Esbenshade of Mansfield and Charlie Farina of Galion in a middleweight scrap; Lawrence Strahm, 126, of Carey and Orlanda Carbetta, 121, of Mansfield; Jack Seckinger of Marion and Ray Burdine of Mansfield, welters; and Bill Eccles, 166, of Mansfield and Pat Patterson, 175, of Delaware.

Grudge Fight

Charlie Farina and Esbenshade, fighting a return match, and by the appearance of their enthusiasm, a grudge fight, started with the opening gong to try for a quick ko. Both boys showed a definite will to mix-it and needed no encouragement from the fans. Esbenshade repeated his performance of their first meeting in January at Mansfield by taking a three round decision. Esbenshade has five wins out of six fights thus far in his career, losing to Earny Arcuri at Swinger's Annex in February in the lone reverse.

Meeting in the last bout of the show, Lawrence Strahm continued to dominate all boxers in his weight in this vicinity by decisioning Orlanda Carbetta. Strahm, as usual, starting slow, wasn't hard to hit in the first round, but he came on with his customary coolness in the last two periods and won on points going away.

Has Own Way

Marion's Jack Seckinger, weltering with Ray Burdine of the Friendly House team, had everything his own way and seemed to enjoy the scrap immensely without bothering to work too hard. Keeping a beautiful left in Burdine's face throughout the fracas and crossing with a right at will, Seck had little trouble in gaining the decision.

Bob Eccles, another Mansfield product (in shape since his last appearance here against John Benedict) had some difficulty in getting past Pat Patterson's guard to employ his in fighting tactics. But Patterson, running hot and cold in spurts, was cold most of the time, and Eccles won on a split decision.

In one bout of doubtful judgment, Johnny Chambers of Marion was awarded a decision over Gene Ayers of Mansfield in the 126 pound class. Both boys had good left hands, and both used them to best advantage.

Waltz Three Rounds

Charles Ludwig, 200, and Al Henderson, 192, of Marion and Delaware respectively, waltzed through three rounds without orchestral accompaniment. Billy Hunt of Marion and Russell Gorrell, also of Marion, fighting at the opposite extreme—in the paperweight division—opened the card with a genuine display of boxing skill.

In other fights, Gene Hunt ko'd Wilbur Millington in the third round, Al Treish of Galion decisioned Wilbur Hutchinson of Marion in the flyweight class; Gene James of Marion decisioned Bill Galland of Galion; Mark Winkle of Byhalia decisioned Dick Obenour of Marion, 130 pound class; and Bobby Hunt of Marion decisioned Billy Sherman of Marion in the paperweight class.

SPORTS ROUNDUP

by Hugh S. Fullerton, jr

NEW YORK, April 8—A professor of economics at the University of Wisconsin, one of the few strongholds of intercollegiate boxing, has asked that university's athletic department to survey the sport to find out if it is detrimental . . . Without knowing the man who made that request, we suspect that he's inclined to be suspicious of any sport that's profitable . . . Having watched college boxing for some time, this observer is firmly convinced (1) that few of the college kids can hit hard enough to do any real damage and (2) that a college boxer is in much less danger of being seriously hurt than a football player . . . The precautions taken often come close to being ridiculous . . . Of course, the prof has pinned one tough rap on boxing—what does it do to maintain and advance cultural standards? . . . Maybe it doesn't do anything in that line, but it does teach a kid to take a punch in the nose and come back for more.

NORRIS ANDERSON, Lincoln, Neb., Star writes: "The Cardinals made fewer errors than any other major league team last summer, but the one they made was bad, oh boy!—fumbling away the National league pennant."

A new high for dead heats was set this year at the Hialeah horse race meeting when there were five for first, one for second and three for third during the 40 days.

REDLEGS START ON JOURNEY NORTHWARD

By The Associated Press

TAMPA, Fla., April 8 — The hustling Redlegs of Cincinnati packed their bags today for a trek north which will land them in the Queen City two days before the National league opener, April 19.

Boasting a Grapefruit league record of 17 victories against 10 defeats, the Rhinelanders move up to Florence, S. C., tomorrow for a game with the Boston Braves.

Their trip home continues through North Carolina, Virginia, Kentucky, and Indiana with the Braves, the Boston Red Sox and Syracuse of the International league providing opposition for seven games.

Syracuse, a Redleg farm club, engages the parent club at Crosley Field, April 17 and 18. The Reds open with the Pittsburgh Pirates at the Cincinnati plant.

The Reds knocked off the lowly Philadelphia Athletics yesterday, 11-3, to close the Florida season.

Successive homers by Grady Hatton, Hank Sauer and Babe Young sparked a six-fourth inning splurge which put the game in the bag for the Reds.

The A's counted all their markers in the first inning as Tommy Hughes got off to a wobbly start.

BUCYRUS SOFTBALL MEETING

Special to The Star

BUCYRUS—Regulations for the Bucyrus' softball season were adopted when the Bucyrus Baseball commission met Monday night to consider an opening date, the system of play and other business. May 17 was tentatively set as the date of the season's opening. Seven teams have been signed up for play.

Gene Bearden May Be Answer To Tribe's Search for Southpaw

By The Associated Press

ALBUQUERQUE, N. M., April 8—Gangling Gene Bearden may be the answer to the Cleveland Indians' search for a starting southpaw hurler.

The Tribe's brain trust had entertained some doubts that the 27-year-old Californian possessed the necessary heart and courage of a major league pitcher, but Bearden dispelled many of those doubts yesterday.

He aced the explosive New York Giants for seven innings and except for a few anxious moments near the end of his assignment, he mowed them down sufficiently to give the Tribe a 7 to 5 triumph in an exhibition at Phoenix.

Bearden faced the Giants once before this spring and suffered a severe beating. He seemed to lack poise and appeared highly nervous while facing the Giant sluggers.

But yesterday he refused to wilt. The Indians held a four-run lead in the ninth inning, but the first two New York batters singled and then advanced to second and third on a wild pitch.

Bobby Rhawn, a little fellow who packs a tremendous wallop, came to bat and Bearden promptly struck him out. It was Rhawn who broke up Tuesday's extra inning game with a three-run homer.

And then Jack Lohrke stepped into the batter's box and Bearden whiffed him too. Lohrke and Rhawn are the Giants' two leading home run hitters this spring. Each has hit five.

The next hitter was Clint Hartung, third in the procession of New York Twirlers, who also has gained considerable prestige at bat. Bearden had two strikes on Hartung before he grounded a ball into center field that manager Lou Boudreau failed to grasp by inches. Two runs scored, but Bearden then easily retired the next batter.

Al Gettel started for the Indians, but worked only two innings before being forced to retire because of a stiff neck.

Eddie Robinson and Boudreau paced Cleveland's 11-hit attack. Robinson smacked a home run and a single, while Boudreau singled twice.

Bob Muncrief, erstwhile St. Louis Brownie, who has been the Indians' most effective twirler this spring, faces the Giants here today.

Coaltown May Be Calumet's Hope of Pulling Triple Win

By OSCAR FRALEY
United Press Sportswriter

NEW YORK, April 8—A comeback bay colt named Coaltown goes to the post in the six furlong Phoenix handicap at Keeneland today and may supply part of the answer to Calumet Farm's hopes of pulling a Bull Lea triple on a three-way jinx in the Kentucky Derby next month.

Coaltown never got to the races as a two-year-old but he has been making up for it since and could give Calumet something to cheer about in the run for the roses. The colt last year developed a cough, licked it and then fell while in training at Washington Park.

But at Hialeah this winter Coaltown came roaring back with two easy victories, his last time out winning at three-quarters in 1:09 3/5 to equal the track record. Monday he went five-eighths hand—eased up by 12 lengths. And dilly in 58 2/5, which happens to be only one and one-fifth seconds off a 33-year-old world record.

Bewitch Right Behind

At the same time Calumet's fat little filly, Bewitch, the 1947 prima donna of the paddock, romped the distance in :59 2/5. You can't call that loafing, and remember, Warren Wright's baking powder establishment still has the favorite of them all, the mighty Citation.

Which puts the devil's red and blue in position to handcuff three hoodoos come May 1 and the nostalgic strains of "My Old Kentucky Home."

Nobody ever has overpowered the field at the Downs with a three horse entry.

No futurity winner, which puts the finger on Citation, ever has copped the Kentucky classic. And no filly, some of them as highly regarded as Bewitch has won the jaunt for the juleps since Regret turned the trick in 1915.

Latest Casualty

The latest three-horse casualty was the favored Maine Chance trio of Lord Boswell, Knockdown and Perfect Bahram in 1946. The top choice at 10 cents on the dollar they finished fourth, fifth and ninth respectively. Now Calumet's big three, all sired by Bull Lea, may get their chance.

As for the failure of futurity winners in the Derby, they'll tell you that not too many of them have tried at Louisville. But the fact remains that none ever has turned the trick in the big one. Certainly, Citation, winner of eight of nine races as a two-year-old and beaten only by Bewitch, rates as good a chance as any to break that jinx.

Fillies, too, whenever they have gone after the blanket of American roses, have taken their lumps. Regret was the only one out of 27 to hit the jackpot. They explain this by claiming that it is too early in the year for the fillies to be at top form. Bewitch, if she goes, could be the second off her juvenile showing of nine wins in 10 starts.

Coaltown Mystery Colt

Which makes Coaltown the mystery colt of the Calumet entry.

The bay beauty which almost didn't get to the races has proved that it has plenty of speed up to, at least, three-quarters of a mile. And while a lot can and does happen in that extra half mile which stretches the Derby to a murderous mile and a quarter, they can't count him out until he gives that piece of ground a whirl.

The strategy may be to put the fast moving Coaltown out in front to kill off the rest of the field and let Citation or Bewitch come on as they please. But a colt named Jet Pilot went out in front last year—and nobody ever did catch him. There's no guarantee that the comeback kid won't do just that, too.

GRID GREAT DIES

By The Associated Press

PORTLAND, Conn., April 8—Perry Hale, 69, Ohio State university's head football coach in 1903, died yesterday. Hale, a fullback on Walter Camp's 1900 All-American eleven, retired from coaching after his one season at Ohio State. He was blinded in a workshop explosion in 1913.

O.S.U. SWIM CAPTAIN

By The Associated Press

COLUMBUS, O., April 8 — An Hawaiian will captain Ohio State university's swimming team again next season. Lettermen last night elected Halo Hirose, free style sprinter, to succeed Bill Smith, also of Hawaii.

Junie McMahon, Chicago, won the individual event in the 1947 ABC meet with 740 pins. Fred Breckle, Detroit, came in second place with a total of 738 pins.

CARDINGTON BASEBALL

CARDINGTON — Cardington High school will play a 10-game baseball schedule this spring, Coach Dennis Bell announced this week. First game is scheduled for April 12, the Pirates playing Iberia on the local diamond. Other games scheduled are April 6, at Edison; April 9, Chesterville; April 13, at Ashley; April 16, Marengo; April 20 at Johnsville; April 23, Sparta; April 27, Waldo; April 30, Galion.

NO BUCYRUS APPOINTMENT

BUCYRUS, April 8 — Bucyrus school board members today said that no appointment would be made this school year to fill the vacancy in the coaching staff of Bucyrus High school caused by the resignation of Don Burkey.

Kelley and Hughes Return Tonite

Jack Kelley will get his big chance tonight to even up the score when he meets Len Hughes in one of the main events at the armory. This time the referee is instructed to stay out of their way, let them go and not to disqualify either man.

To make this one of the biggest programs seen here, Promotor Fishbaugh has signed up Steve Nenoff to put his American Junior Heavyweight Gold Belt at stake against Gene Blakely, the Texan who proved too rough in last week's card and got disqualified. Both matches are for ninety minutes or the best two out of three falls.

A ten minute prelim at 8:30 between Thomas Napper and Mickey Mouse will open the show. Call 2745 after six for reservations. Prices just the same, 50c-75c and $1.00—Adv.

"Bad Boy" Rocky May Fight in Cincinnati

CINCINNATI, April 8—Boxing's "Bad Boy" Rocky Graziano may fight a 10-round non-title fight in Cincinnati later this month.

George Murphy, Cincinnati Boxing commission secretary, revealed last night the commission has given "informal approval" to a match involving the middleweight champion and an unnamed opponent.

Graziano decisioned Sonny Horne Monday at Washington in his first fight since knocking out Tony Zale in a middleweight championship bout at Chicago last summer.

Brisk Demand for Fishing Licenses Reported Today

By The Associated Press

COLUMBUS, O., April 8—A brisk demand for fishing licenses was reported today by the conservation division.

The licenses good until next March 1, are being sold mainly at Hardware, sporting goods and grocery counters. Some dealers have run out of license forms and have asked for fresh supplies.

Around 670,000 licenses were sold last year. Conservation officials said the unusual demand this early in the season indicated even more would be sold this year.

Officials said the state's program of developing lakes has been a boon to Ohio fishermen. Reports received by the conservation division indicated good fishing throughout the state. The best fishing at this time of the year is in the large lakes controlled by the state. Most of the streams are still too turbulent, putting the angler at a disadvantage in matching bits with the finny tribe.

Fish Bit in April

Almost all fish are hitting during April with the coming of warmer weather, Lee Roach, assistant chief of the fish management section, said. He added April was chiefly a month for crappie fishermen. Roach reported a heavy demand for minnows favorite bait for crappies.

Every one over 18 and not on his own property must have a license to fish. The cost is $1 plus a 10 cent fee.

The cost of a fishing license was doubled two years ago and there is a likelihood it may be doubled again. The 1949 legislature probably will be asked to raise the cost of both fishing and hunting licenses from $1 to $2.

The conservation division, however, is conducting no campaign to boost license costs but is leaving the question up to sportsmen. Present revenues from fishing licenses are inadequate to finance new lake development projects, P. L. Runkle, chief engineer of this fish management section, said. Lack of funds, he said, had delayed the building of headwater lakes proposed in several Ohio communities.

Conservation Commissioner H. A. (Buck) Rider reported Ohio stood fourth last year in the United States in the sale of fishing licenses. Ohio sold 669,615. Michigan was first with 989,333, California second with 848,446 and Minnesota third with 765,335. In fishing license revenue, however, Ohio stood tenth because it charged less for a license than other states, Rider said. California ranked first with a fishing license income of $1,718,066.

REPORTS EARNINGS

By The Associated Press

LORAIN, O., April 8 — The Thew Shovel Co. today reported a record net profit of $2,235,000 for 1947, equal to $14.51 a common share, compared with $891,417 and $3.50 for 1946.

What To Do For That Sluggish, Down-and-Out Feeling

Remember the time when you could eat like a horse, bubbled-over with energy, felt happy as a lark? Was it not because you liked to eat—didn't know what indigestion was, felt strong as an ox? As age advances the "old stomach and the ever-changing blood" need help. Now you may again release vibrant energy to every muscle, fibre, cell.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloat and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

Former Army Nurse Married in Bucyrus

Special to The Star

BUCYRUS, April 8—A marriage in Holy Trinity rectory Wednesday morning at 10:30 united Miss Susanne Brause, former army nurse, and Joseph W. Dupuis Jr. of Chicopee, Mass. The Rev. Fr. Leo Reinartz officiated at the double ring service.

The bride wore an ivory slipper satin gown of her own design. Her only attendant, Miss Margaret Puky of Cleveland was in blue taffeta. Albert E. Booth of Chicopee acted as best man.

Members of the immediate families and a few close friends were entertained at dinner at noon at the Brause home. The couple will live in Springfield, Mass., where Mr. Dupuis is associated with the Ross Sanitation Co. The bride, daughter of Mr. and Mrs. Lloyd Brause, has been employed as a nurse at Galion City hospital. She served for four years in the army nurse corps. Mr. Dupuis is also an army veteran.

"GLORY OF DYING" IS SERMON SUBJECT TONIGHT

At the evangelistic service at the Maranatha Bible church tonight, Rev. Tom Presnell, evangelist, will preach on "The Glory of Dying." Duet numbers will be by Miss E. Jundt of Mansfield and Rev. David E. Weinzierl of the Marion Christian and Missionary Alliance church. By request, in connection with the sermon theme, Rev. Weinzierl will sing "I Won't Have To Cross Jordan Alone." At the service last night, a delegation was present from Upper Sandusky. The sermon subject was "Marionitis." Rev. Presnell stated, "The vision of the native is usually a person 'in a rut,' passing up the important, having the eyes on others and on conditions instead of on Christ. The Lord is never seen by those occupied by things of the world. Salvation is found only in the blessed person of the only begotten son of God."

One Man's Opinion

By WALTER KIERNAN

Five hundred congressmen will visit New York for the city's Golden Jubilee . . . If urged they will speak.

Invitations have been extended to the 500 to visit radio broadcasts. One (a northern Democrat) said he would like to see "Mr. President."

When he was told that "Mr. President!" originates in Hollywood he said "I wondered why I hadn't seen him on the balcony recently."

There were several requests for "Mayor of the Town" but O'Dwyer is in California too. The only thing open for the legislators seems to be "Daily Dilemmas" or "Just Plain Draft Bill."

Incidentally I hear Petrillo is a little sore at the program called "Stop the Music." . . . Claims he's been doing it for years off and on.

The courts are working one up for John Lewis called "Stop the Nonsense!"

TODAY'S BIRTHDAY

By AP Newsfeatures

MARY PICKBORD, born April 8, 1893 in Toronto, Canada, was "America's sweetheart" after World War I and, for years, the world's best known and, perhaps, its highest paid woman. She started in early day movies and her sensational rise was climaxed when she formed her own company and put herself down for a $10,000 a week drawing account and half of the profits, said to have totaled more than two million dollars a year. Later she became president of the Artists Alliance Corporation. For years she was the wife of Douglas Fairbanks.
